

JOONA ANSAMAA

Software Developer

As a recent software development graduate, I'm eager to contribute my skills to the industry. I'm passionate about crafting high-quality software to solve complex business problems, comfortable working independently or in a team, with fluency in both Finnish and English.

Apart from my studies, I've independently tackled various projects, greatly improving my skills. I've dedicated significant time to refining my coding abilities, enabling me to confidently handle challenging programming tasks. I'm driven by an unwavering curiosity for software development, always seeking to expand my knowledge and enhance my techniques.

My strong work ethic and commitment to excellence push me to consistently improve my coding capabilities.
