in.com/in/joona-ansamaa-8941131a9/

I am a recently graduated software developer, full of passion for development. I am excited to embark on my career in the software industry, working alongside other talented professionals. I am actively seeking opportunities to contribute my skills in developing high-quality software that addresses and solves challenging business problems. I am capable of making substantial contributions in a collaborative environment, while also being able to work independently. Additionally, I am a native Finnish speaker with fluent English proficiency.

In addition to my school studies, I have independently undertaken various projects in my free time, which have significantly contributed to my skill set. Moreover, I have dedicated countless hours honing my coding abilities, resulting in a well-rounded skill set that enables me to tackle complex programming challenges with confidence. I am driven by a deep curiosity for the ever-evolving field of software development, constantly seeking new opportunities to expand my knowledge and refine my techniques. Furthermore, I possess a strong work ethic and an unwavering commitment to excellence, which motivates me to continuously improve and push the boundaries of my coding capabilities.
